The screenshot shows the AWS Management Console interface for the PartiQL editor. The left sidebar contains navigation options like Dashboard, Tables, Update settings, Explore items, Backups, Exports to S3, Reserved capacity, Preferences, DAX, Clusters, Subnet groups, Parameter groups, and Events. The main area displays the 'Student' table with a query editor showing 'select * from Student;'. Below the query editor, there are 'Run' and 'Clear' buttons. The results section shows 'Completed' status, start time '6/16/2022, 2:04:58 PM', and elapsed time '573ms'. A table of 'Items returned (2)' is displayed with columns 'id', 'name', and 'title'.

id	name	title
2	sushmi	AWS developer preparation
1	muni	AWS preparation

Click on tables >>> and go to Global Tables

The screenshot shows the AWS Management Console interface for the 'Global tables' tab of the 'Student' table. The left sidebar is the same as the previous screenshot. The main area shows the 'Student' table with tabs for Overview, Indexes, Monitor, Global tables, Backups, Exports and streams, and Add. The 'Global tables' tab is active, showing 'Replicas (0)' and a 'Loading' status. There are buttons for 'Delete replica' and 'Create replica'.

The new DynamoDB console is now complete, and becomes your default experience

Following the preview phase in which we analyzed and incorporated your feedback, we have completed the new DynamoDB console, making it even easier for you to manage your data and resources. Let us know what you think. You can still choose to return to the previous console from the navigation pane.
